

A digital illustration of a woman with long, wavy blonde hair and blue eyes, wearing a dark turtleneck and a dark blazer. She is surrounded by a futuristic, purple and blue digital interface with various data visualizations, charts, and a globe. A large, glowing circular graphic with the letters "AI" is positioned in the foreground, partially overlapping her. The background is a dark, starry space with glowing lines and nodes.

## Agent Emma Agentic Outreach Intelligence

*Engineering intelligent business systems that autonomously engage, decide, and act — So your business operates at the  $N^{\text{th}}$  power, even while you sleep.*

**Engineered by N<sup>th</sup>Sol**

Agents of the Intelligent AI & Decision Systems

# The Sales Automation Trap

## Current State Reality

Traditional tools like **Clay instantly**, **Meet Alfred**, **Lemlist**, and **Apollo** create operational friction instead of efficiency. SDRs spend more time configuring sequences than engaging buyers. Messaging feels templated, automation is obvious, and response rates decline — **weakening both pipeline and brand credibility**. SDRs become tool operators, not revenue drivers.

## Where It Breaks Down

### Manual Complexity

Constant sequence building across disconnected tools

### Constant Oversight

Requires ongoing human monitoring and adjustment

### Generic Messaging

Templated outreach buyers instantly ignore

### Limited Scale

Personalization degrades as volume increases

***More effort. More tools. Fewer meetings.***

# Your AI Sales Development Representative — Always On

**Agent Emma** is a marketing intelligence system engineered by N<sup>th</sup>Sol to drive B2B outreach autonomously.

She researches prospects, crafts personalized messaging, orchestrates multi-channel campaigns, and books qualified meetings — without manual setup or ongoing human intervention.

*Built to operate with precision, consistency, and scale.*

## Key Capabilities:

### Meeting-Focused by Design

Single objective: deliver qualified, sales-ready meetings to your team.

### Multi-Channel Execution

Seamlessly coordinates LinkedIn, email, and voice engagement within a single intelligent flow.

### Autonomous Decision Intelligence

Makes outreach decisions dynamically — no manual sequence building or rule-based workflows.

# Imagine a World Where Your Sales Outreach Runs Itself

What if adding **one contact** could instantly trigger a fully personalized, multi-channel outreach motion — researching prospects, engaging intelligently, and converting interest into meetings **without manual effort**?

## One Contact In

Single-click ingestion from LinkedIn, email, or CSV.

## Deep Research

Automated prospect enrichment, ICP scoring, and company research.

## Personalized Outreach

Engagement adapts dynamically to behavior and context.

## Auto-Schedule Meetings

Qualified conversations booked directly to your calendar.

**Agent Emma** makes this operational reality.

An AI Sales Development Representative that autonomously researches and executes outreach.

# The First Truly Agentic Outreach System

**Agent Emma** isn't another sales automation tool — she's an AI teammate.

Powered by autonomous decision intelligence and multi-agent orchestration, Emma operates like your best SDR — researching prospects, personalizing engagement, and managing outreach across channels **without manual intervention**.

## What Makes Emma Different

### Autonomous Intelligence

No sequence building required — Emma determines the optimal outreach strategy.

### Multi-Channel Orchestration

LinkedIn, email, and voice executed seamlessly in one intelligent flow.

### Hyper-Personalized Research

Deep analysis of each prospect's background, role, and interests.

### Self-Managing Campaigns

Automatically starts, pauses, and adapts based on prospect responses.

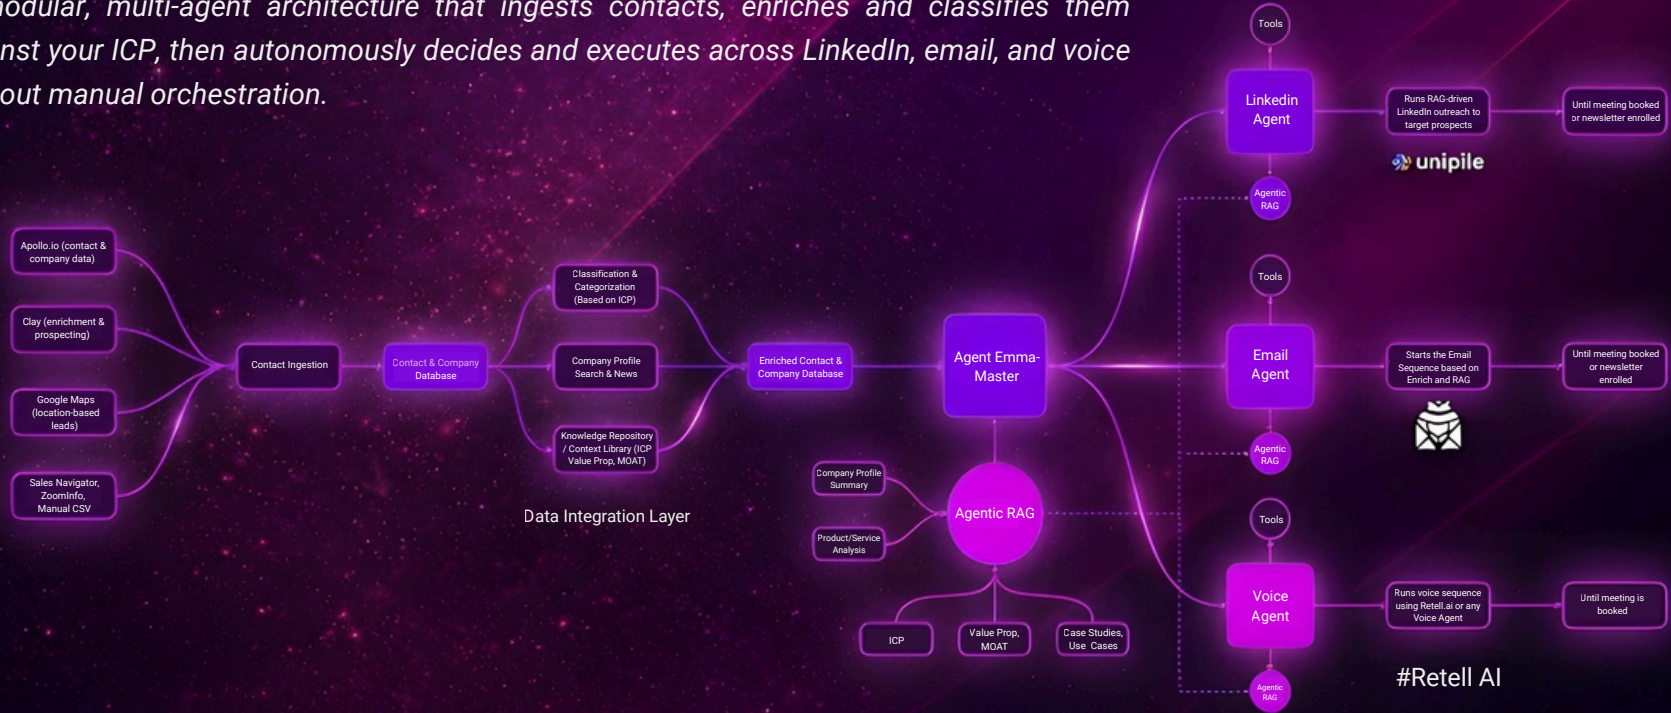

### Meeting-First Goal

One objective: deliver qualified conversations to your calendar.

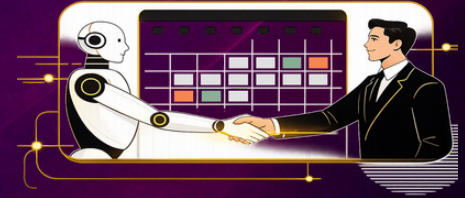

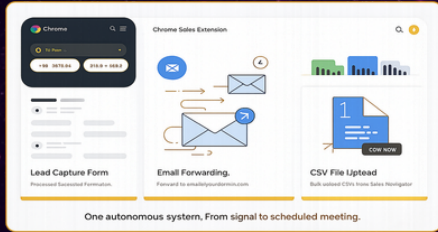

# Agent Emma Architecture

## Marketing Intelligence within N<sup>th</sup>Sol's Intelligent AI & Decision Systems

A modular, multi-agent architecture that ingests contacts, enriches and classifies them against your ICP, then autonomously decides and executes across LinkedIn, email, and voice without manual orchestration.

# How Agent Emma Works

## Contact Ingestion

Import prospects from Apollo.io, Clay, Google Maps, ZoomInfo or Sales Navigator. Activate instantly via direct sync or CSV upload.

## Enrichment & Research

"Contacts are stored, enriched via Apollo.io, and researched across LinkedIn, Google Maps, and company sources for personalized context.

## Intelligent Outreach

Automated multi-touch sequences run on LinkedIn, email, and phone, adapting messaging until a response or goal is achieved.

## Meeting Coordination

Outreach pauses on prospect response, while Emma schedules meetings and hands off conversations to humans for closing.

See Agent Emma run autonomous outreach for your business.
